**Listing of Claims**

**CLAIMS**

What is claimed is:

1. . (currently amended) A computer-implemented method for obtaining information about a service in support of commercial real estate transactions, comprising the steps of:  
providing a virtual marketplace to market services of a plurality of commercial real estate service providers;  
receiving, at the virtual marketplace, a request for information regarding a requested commercial real estate service available from the commercial real estate service providers, wherein the request comprises request criteria identifying a property and defining the requested commercial real estate service; and  
publishing ~~the requested information~~ at the virtual marketplace information responsive to the request in response to receiving the request and based on matching the request criteria identifying the property and defining the requested commercial real estate service with one or more commercial real estate service providers, wherein the ~~requested~~ information responsive to the request is published as one of textual information regarding the commercial real estate service providers and links to web sites of the commercial real estate service providers;  
receiving, at the virtual market place, a request for a price quote for the one or more commercial real estate service providers matched in the preceding step; and  
sending the request for a price quote to the one or more commercial real estate service providers.

2. (canceled)

3. (previously amended) The method of claim 1, further comprising the steps of:

Appl. No. 09/766,726  
Carolyn Pianin  
Response to Final Office Action

receiving and storing service provider criteria from each of the service providers, the service provider criteria defining services provided by each respective service provider; and

matching the request criteria identifying the property and defining the requested commercial real estate service with the stored service provider criteria to identify one or more service providers that can provide the requested service,

wherein the information published in said publishing step comprises information corresponding to the identified one or more service providers.

4. (canceled)

5-10. (canceled)

11. (previously presented) The method of claim 1, wherein the services comprise services and products.

Response to Final Office Action

12. (currently amended) A computer-implemented method for providing information about due diligence services for commercial real estate transactions using a distributed computer network, comprising:

providing a virtual marketplace to market services of a plurality of providers of commercial real estate due diligence services;

receiving, at the virtual marketplace, a request for information regarding a requested commercial real estate due diligence service available from the service providers, wherein the request comprises request criteria identifying a property and defining the requested commercial real estate service;

receiving and storing service provider criteria from each of the service providers, the service provider criteria defining services provided by each respective service provider;

matching the request criteria with the stored service provider criteria to identify one or more service providers that can provide the requested service; and

in response to the matching step, publishing the requested information associated with the one or more service providers identified in the matching step at the virtual marketplace in response to receiving the request and based on the request criteria, wherein the information is published as one of textual information regarding the commercial real estate service providers and links to web sites of the commercial real estate service providers[.]]

~~wherein the information published in said publishing step comprises information corresponding to the one or more service providers identified in said matching step;~~

receiving, at the virtual market place, a request for a price quote for the one or more service providers identified in the matching step; and

sending the request for a price quote to the one or more service providers.

13. (previously presented) The method of claim 12, wherein the due diligence services comprise at least one of an engineering service, an environmental service, or an appraisal service.

Appl. No. 09/766,726

Response to Final Office Action

14. (previously presented) The method of claim 13, wherein the engineering service comprises at least one of a property condition report, an Americans with Disabilities Act compliance review, a building forensic study, construction monitoring, design/build construction, detailed design engineering, engineering desktop review, estimating, a feasibility study, a physical needs assessment, process engineering, reserve analysis, and a seismic study report.

15. (previously presented) The method of claim 13, wherein the environmental service comprises at least one of a Phase I, Phase II, or Phase III environmental assessment.

16. (previously presented) The method of claim 15, wherein the Phase I environmental service comprises a protocol environmental assessment,

wherein the Phase II environmental service comprises at least one of asbestos assessment, lead-based paint assessment, underground storage tank management, a ground water survey, and an operation and maintenance program, and

wherein the Phase III environmental service comprises at least one of an asbestos screening, a lead-based paint screening, a transaction screening, governmental records searching and interpretation, and a report review and opinion.

17. (previously presented) The method of claim 13, wherein the appraisal service comprises at least one of a property valuation report, an ad valorem tax appraisal, a feasibility study, a financial reporting valuation, a highest and best use analysis, an impact analysis, insurance placement, and an insurance replacement cost study.

18. (Canceled)

19. (previously presented) The method of claim 12, wherein the services comprise services and products.

20. (currently amended) A computer-implemented method for providing information about commercial real estate services via a distributed computer network, comprising:

providing a virtual marketplace to market services of a plurality of providers of commercial real estate services;

receiving, at the virtual marketplace, a request for information regarding a requested commercial real estate service available from the service providers, wherein the request comprises request criteria identifying a specific property and at least one requested commercial real estate service for the specific property;

receiving and storing service provider criteria from each of the service providers, the service provider criteria defining services provided by each respective service provider;

matching the request criteria, including the criteria identifying the specific property and the at least one requested commercial real estate service for the specific property, with the stored service provider criteria of one or more of the service providers that can provide the requested service; [[and]]

in response to the matching step, publishing the requested information associated with the one or more service providers identified in the matching step at the virtual marketplace ~~in response to receiving the request and based on the request criteria~~ for the specific property, wherein the information is published as one of textual information regarding the commercial real estate service providers and links to web sites of the commercial real estate service providers;[[.]]

~~wherein the information published in said publishing step comprises information corresponding to the one or more service providers identified in said matching step.~~

receiving, at the virtual market place, a request for a price quote for the one or more service providers identified in the matching step; and

sending the request for a price quote to the one or more service providers.

21. (previously presented) The method of claim 20, wherein the request criteria identifying a specific property comprises at least one of a property address, a building size, a site size, an age of the building, a property type, and a number of buildings on site.

22. (previously presented) The method of claim 20, wherein the at least one requested commercial real estate service of the request criteria comprises at least one of an engineering service, an environmental service, or an appraisal service.

23. (previously presented) The method of claim 22, wherein the engineering service comprises at least one of a property condition report, an Americans with Disabilities Act compliance review, a building forensic study, construction monitoring, design/build construction, detailed design engineering, engineering desktop review, estimating, a feasibility study, a physical needs assessment, process engineering, reserve analysis, and a seismic study report.

24. (previously presented) The method of claim 22, wherein the environmental service comprises at least one of a Phase I environmental service comprising a protocol environmental assessment, a Phase II environmental service comprising at least one of asbestos assessment, lead-based paint assessment, underground storage tank management, a ground water survey, and an operation and maintenance program, and a Phase III environmental service comprising at least one of an asbestos screening, a lead-based paint screening, a transaction screening, governmental records searching and interpretation, and a report review and opinion.

25. (previously presented) The method of claim 22, wherein the appraisal service comprises at least one of a property valuation report, an ad valorem tax appraisal, a feasibility study, a financial reporting valuation, a highest and best use analysis, an impact analysis, insurance placement, and an insurance replacement cost study.

26. (canceled)
